MANTYS 

## Mantys is a brand new type of electric powered vehicle, delivering a fun and dynamic, yet comfortable ride!

Our first Mantys, Mantys Golf, is fully designed for the golf course. With a range of 36 holes, the Mantys has the power to effortlessly take a 20-percent climb with turf-saving tires and is therefore your perfect companion for a perfect game of golf.

Mantys has a unique and fun way of handling. Rather than using a steering wheel or handlebar, Mantys is controlled by shifting your weight with carve skiing-like movements. This offers the rider a unique riding experience.

Mantys Golf comes with a universal bag mount, a scorecard holder, ball and tee holder and cup holder. The product will be available early 2010.

Beside Golf, the Mantys can be put to use in various other applications like warehouses, resorts, terrain inspection, final mile delivery, etc.

### Enjoy Dynamic Driving, Enjoy Mantys!
